

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

March 16 through 31, 2000

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **March 16 through 31, 2000**.

CLEARINGHOUSE CONTACTS

Please contact the Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613.
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte (for projects in Northern California)
Scott Morgan (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available at http://ceres.ca.gov/planning/pub_org.html.

Federal Notices

Intergovernmental Review Notices (March 16 through 31, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: United States Postal Service

CONTACT: n/a

TELEPHONE: n/a

ADDRESS: U.S. Postal Service
Pacific Facilities Service Office
395 Oyster Point Blvd., Suite 225
South San Francisco, CA 94099-0300

DESCRIPTION:

The United States Postal Service has given notice of the following site that are under consideration for selection of this Main Post Office: former Rite Aid store on the upper level of the Lake Arrowhead Village on Highway 189 in Lake Arrowhead, CA. No significant impact to the environment is anticipated; therefore, this project is declared to be categorically exempt to implement NEPA.

AGENCY: Tahoe National Forest

CONTACT: Larry Gruver

TELEPHONE: 530-478-6180

ADDRESS: Tahoe National Forest
631 Coyote Street
Nevada City, CA 95959-2250

DESCRIPTION:

Tahoe National Forest has given notice of the Federal Register notice, which highlights the recent proposal to shift National Forest transportation policy from that of road development to one of road maintenance and the decommissioning of unnecessary roads. The public comment period has begun and will close on May 2, 2000. Comments should be sent to USDA Forest Service, CAET, Attn: Roads, PO Box 221090, Salt Lake City, UT 84122.

COMMENT BY: n/a

AGENCY: Surface Transportation Board

CONTACT: n/a

TELEPHONE: n/a

ADDRESS: n/a

DESCRIPTION:

San Joaquin Valley Railroad and Union Pacific Railroad has given notice of the abandonment of the railroad line between milepost 311.9 and Milepole 312.55 at or near Maltha. No significant impact to the environment is anticipated; therefore, this project is declared to be categorically exempt to implement NEPA.

COMMENT BY: n/a

AGENCY: U.S. department of Interior

CONTACT: Jeff McCracken

TELEPHONE: 916-978-5100

ADDRESS: Mid-Pacific Regional Office
2800 Cottage Way
Sacramento CA 95825-1898

DESCRIPTION:

The Bureau of Reclamation has given notice of an “agreed in principle” with the Townsend Flat Water Ditch Company to pursue a proposed project that would bring down the 93-year-old Saeltzer Diversion Dam. The proposed project would allow spring-run Salmon and Steelhead to gain access to valuable spawning and nursery habitat on Clear Creek in Northern California.

Federal Grant Applications

The notices of federal grant application are not available in electronic form. If you would like to receive a hard copy of these notices by mail, please let us know.

CEQA Documents

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Thursday, March 16, 2000</u>			
2000031056	Loftis Dairy Establishment (PSP 99-114) Tulare County Alpaugh--Tulare Special Use Permit to establish a new dairy facility on approximately 242 acres of the 2,081.45 acre subject site. The balance of the acreage to remain under cultivation and available for irrigation with reclaimed dairy waste water.	con	04/04/2000
2000031055	Live Oaks Springs San Diego County, DPLU Live Oak Springs--San Diego The project involves construction of an In Line Amplification (ILA) station supporting a fiberoptic line that will run between Santee, California and Yuma, Arizona. Proposed development will take place on approximately 5 acres of the 10-acre project site.	neg	04/14/2000
2000031057	Ernest E. Debs Regional Park Framework Plan Los Angeles County Highland Park--Los Angeles The proposed project involves a comprehensive program to enhance Ernest E. Debs Park through upgrading deteriorating facilities, providing additional recreational amenities, and restoring and maintaining the park's natural environmental features, which contribute to the community's education and enjoyment of the area's native ecology.	neg	04/14/2000
2000031059	Mount Home Demonstration State Forest-Pre-Commercial Thining Forestry And Fire Protection, Department of Springville--Tulare Mount Home Demonstration State Forest staff plan on pre-commercially thinning 30 acres of pine plantations, in eight small treatment units. Tree mortality from overcrowding is significant. In addition, brush competition and fuel loading has become a problem. The treatment units vary in size from 1.7 to 5.4 acres and vary in age from 30-40 years. The goal is to remove vigor trees and provide growing space for the residual trees. Vegetation will be cut, lopped and scattered, or piled and burned. All work will be conducted by hand crews using chainsaws and other hand tools. There will not be any heavy equipment used on the project and therefore only minimal ground disturbance. One treatment unit is located in a natural conifer stand with the overstory trees being about 100 years old. Only the dense clusters of small trees will be thinned in this treatment unit.	neg	04/14/2000
2000031061	House of Lanterns RV Parks Imperial County Planning Department El Centro--Imperial The proposed amenities and park grounds will include refurbishing the existing clubhouse, pool, spa and smaller existing building. The new amenities by the proponent include: a church, a bike shop, a movie house, cowboy town, a pavillion, a picnic table area, and a proposed boat trailer storage area.	neg	04/17/2000

2000032076	Remedial Action Plan - Bay Area Drum Site Toxic Substances Control, Department of San Francisco--San Francisco Approval of Remedial Action Plan	neg	04/20/2000
2000032077	Knighton Road Extension Shasta County Redding--Shasta The proposed Knighton Road extension corridor is approximately 2 miles long. The project area includes right-of-way for the Knighton Road alignment, right-of-way for a new road connecting the Knighton Road extension with Churn Creek Road, the existing Churn Creek Road right-of-way, and the sites of four new cul-de-sacs. One cul-de-sacs will be constructed where Knighton Road will bisect Mohegan Court. A second cul-de-sac will be near Pacheco School. The other two cul-de-sacs will be located at the end of Pacheco Road and Clover Road to prevent through access. Short segments of Churn Creek Road and Mohegan Court will be abandoned.	neg	04/14/2000
2000031058	Salvation Army Divisional Camp and Retreat Specific Plan San Diego County, DPLU Ramona--San Diego The proposed project is a major modification of a major use permt P70-379W and a Specific Plan. The project is a proposal for a twenty-year master plan to expand an existing 575 acre camp and retreat for the Salvation Army. Zoning ordinance section 2705 requires a Major Use Permit for this use in an A70 zone. The phased 20 year master plan proposes tent camping, nature studies camping, and conferencing for a maximum capacity of 850 people. The proposed Specific Plan for the 20 year phased expansion of the Salvation Army Divisional Camp and Retreat would include the following major components: Expanded Cabin Camping Component. Expanded and Relocated Tent Camping Component. Nature Study/Educational Camp Component. Expanded and Relocated Conference Component. Expanded Remote Over-night Camp Areas. Recreational Vehicle Parking Area. Expanded Support Facilities.	nop	04/14/2000
2000022033	Feather River Bikeway Project Oroville, City of Oroville--Butte Feather River Recreation and Park District proposes to extend the existing Feather River Bikeway by constructing a Class I bikeway which would provide an upstream and downstream connection of the existing bikeway to Oroville Dam Boulevard at the Highway 162 and Highway 70 interchange and near the base of Oroville Dam, respectively. The Feather River Recreation and Park District, along with the City of Oroville, would construct the bikeway for bicycle, pedestrian, equestrian, and other uses to enhance recreation opportunities along the Feather River and Thermalito Diversion Pool, and to provide safe and viable transportation alternatives.	sir	04/05/2000

<u>Documents Received on Thursday, March 16, 2000</u>			
1987082611	SAN DIEGO STATE NORTH COUNTY CENTER MASTER PLAN University of California, Regents of the San Marcos--SAN DIEGO Schematic Plans for Field House/ Student Union Offices, 32,000 gross square feet, single-story, consisting of dining hall, support space, meeting rooms, gymnasium, offices, athletics related support space.	nod	
1991021064	VISTA BUSINESS PARK SPECIFIC PLAN Vista, City of VISTA--SAN DIEGO The applicant proposes to construct the Vista Oaks/Avanti-Cho Industrial pads and one open space lot, impacting 0.044 acre of stream with fill. Mitigation includes the creation of 0.09 acre of riparian woodland, including the recreation of the stream and the installation of native habitat.	nod	
1999062037	Los Alamos Hills Master Plan EIR (99-078) Murrieta, City of Murrieta--Riverside The project consists of 254 acres in northern Murrieta and includes a high school, middle school, sports complex, active park, fire/police station, and nature center. It is a joint effort between the City of Murrieta and the Murrieta Valley Unified School District (MVUSD) to create more educational and recreational facilities for the City. The project will make various on-and off-site improvements in water, sewer, flood control. and roads, including Los Alamos Road and Clinton Road.	nod	
2000022019	Fallon Creek Bridge Replacements: Marin Route 1 Caltrans #4 Tomales--Marin Replace Fallon Creek Bridge on State Route 1 approx. 2.5 km north of Tomales in Marin County. Widen, regrade and repave a total of 0.6 km of roadway adjacent to the bridge. Stabilize the creek bank west of road.	nod	
2000038116	Sierra Conservation Center (SCC), Jamestown Temporary Discharge Corrections, Department of Jamestown--Tuolumne The proposed project consists of temporary discharge, on an urgent basis, of tertiary-treated effluent from the Sierra Conservation Center (SCC) State Prison near Jamestown. The proposed project would truck the tertiary-treated effluent from the prison for disposal into Woods Creek in the County of Tuolumne. Discharge would take place via a temporary 12-inch pipe from the truck to the stream. The location of the proposed discharge would be at the Sierra Rock Quarry, a commercial gravel operation on Woods Creek. The site is highly disturbed due to the gravel operation, and the proposed project would not affect any sensitive biological resources. The amount of effluent for disposal will vary depending on the amount and duration of rainfall, and how full the existing storage at the prison is at the time. The proposed project is needed because the institution requires an interim solution pending the design and construction of the SCC Jamestown Effluent Disposal Pipeline Project. The Pipeline Project is intended as the permanent solution for effluent disposal, and estimated construction completion date is 2004.	noe

2000031043	Avalon Del Rey Apartments Los Angeles, City of Los Angeles, City of--Los Angeles Construction of 310 dwelling units in a 305,000 square foot development with 620 parking spaces. The 4.5 acre site is currently developed with two vacant warehouses. Zone change requested from M2-1 to C2-2 and a General Plan Amendment from Light Industrial to Neighborhood/Office Commercial. The Department of the City Planning proposes Parcels numbers 1, 2, 7 and 9 on the radius map submitted with the project application be considered as Plan Amendment Add Areas in the review of this project.	eir	05/15/2000
2000031063	EA SF 5-99; Precise Development Plan No. 10, Map No. 101 (M & S Land Company, LLC) Kern County Planning Department Kern City--Kern A precise development plan for four 5,000 square-foot buildings for use as contractor's storage yards or truck and heavy equipment storage yards accessory to natural resource extraction or agricultural activities in an NR (5) (Natural Resources 5 acre) District. The project site consists of a 6.5 acre portions of a 142.36 acre parcel currently developed with a combination of agricultural and oilfield production operations. The applicant is proposing to develop four 5,000-square-foot buildings for use as support services facilities for either natural resources extraction or agricultural operations. The site has been heavily disturbed by ongoing oilfield production operations as well as farming operations located on the northern portion of the property. The proposed method of sewage disposal is by individual septic systems with water supplied by California Water Service. Access to the development is from the existing Snow Road alignment and from Allen Road which will be developed as part of the proposed development.	neg	04/17/2000

2000039015	Stream Crossings for Timber Harvest-2-99-278 Forestry And Fire Protection, Department of --Plumas The applicant proposes to install 8 temporary crossings.	nod	
2000038140	Santa Rosa #1 &2 Parole Units Corrections, Department of Santa Rosa--Sonoma The California Department of Corrections proposes to lease approximately 6,000 additional square feet of office space for the Santa Rosa #1 and 2 Parole Units.	noe	
2000038141	Oxnard and Ventura Parole Units Corrections, Department of Oxnard--Ventura The California Department of Corrections proposes to lease approximately 1,500 additional square feet of office space for the Oxnard and Ventura Parole Units.	noe	
2000038142	Transfer of coverage to Placer County APN 83-370-14 (Blundell) Tahoe Conservancy --Placer Project consists of the sale and transfer of 1,206 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	noe	
2000038143	Repair Steam System at Metropolitan State Hospital Mental Health, Department of Norwalk--Los Angeles The proposed project consists of re-routing of existing steam and condensate return piping at Metropolitan State Hospital. The proposed project would re-route the piping currently located under Building 304, which is abandoned, to a direct line from Building 315, to an existing steam and condensate piping located under abandoned building 303 to a direct line from Building 305 to the Religious Center, and from the Religious Center to Building 301. The existing piping along the old routes would be abandoned in place. The project is needed because the of deteriorating conditions in the existing direct buried piping and piping in concrete chases within the site distribution system. In addition, it is necessary to replace and re-route the distribution piping under the abandoned buildings that will ultimately be demolished. The proposed project will help to distribute the steam more efficiently from source to point of use. The project does not involve expansion of existing use.	noe	
2000038144	Railroad Preemption Caltrans #2 Anderson--Shasta In Shasta County near Anderson, this project provides a railroad preemption at Ox Yoke Road (PM 6.9) and Latona Road, (PM8.6). The design will require trenching to a depth of approximately 30 inches, placing conduit and conductors in the trench, and routing this equipment to a pull-box near the railroad. No additional right-of-way or construction easements are required No permits are required.	noe

2000031082	E.A. No. 37913, Riverside County Mountainous Communities Hazardous Vegetation Abatement Program for the year 2000 Riverside County Idyllwild, Pine Cove, Mountain Center--Riverside The proposed project is aimed at reducing fire hazards associated with the accumulation of brush on vacant parcels lying adjacent to developed ones. Hazardous vegetation will be selectively cleared in order to lessen the impact of wildfires. Light mechanical methods of brush removal will be used. Methods include handwork using chain saws, saws and clippers, line trimmers, and mowers. Vegetation will be either chipped and spread over the site or ground into mulch for garden use, energy production, or disposal. Parcels on approximately 6,728 acres have been identified as potentially needing treatment, but the actual number that will receive treatment is not known. Treatment will be done on an as-needed basis and subject to available funding. The proposed project does not apply to meadow, wetland, or riparian areas.	neg	04/21/2000
2000031083	Year 2000 Riverside County Weed Abatement Program Riverside County --Riverside The Year 2000 Riverside County Weed Abatement Program, like its predecessors, requires property owners in western Riverside County to remove flammable vegetation constituting a fire hazard from their properties. This includes weed removal around buildings and other structures. Properties under five acres in size require complete removal of such weeds, whereas properties over five acres require only partial removal concerning on weed removal along property lines.	neg	04/21/2000

Beckman High School Tustin Unified School District Irvine--Orange Construction, placement, operation and maintenance of all appropriate and necessary premanent and/or temporary school facilities including, but not limited to, modular teaching stations, a football and track field, shade shelters, theater, pool, gymnasium, media center, electric service building, playfields, lighting and administration, support and parking.	neg	04/24/2000
2000031094	Northgate Plaza Tentative Subdivision Map El Centro, City of El Centro--Imperial The City of El Centro is considering the approval of a tentative subdivision map for the development of 14 lots and 2 remainder parcels for the development of a commercial center on 32, 63acres of land located in the City of El Centro. The project proposes the development of a neighborhood shopping center and auto mall, intended to provide sales and services for El Centro and the surrounding area. The proposed project also includes an east-west street, which bisects the project, as well as north-south street (Cottonwood Drive), to provide improved circulation within the center.	neg	04/24/2000
2000031095	Four Million Gallon Reservoir Tank, ER-98-01 Lompoc, City of Lompoc--Santa Barbara The proposed is the construction of a 4 million gallon reservoir tank to be located on property at the south terminus of Avalon Street. The reservoir is designated to address existing need for water serice, including adequate fire flow, which cannot be met by the exisging City water system.	neg	04/24/2000
2000031096	Josephson Residence San Diego, City of La Jolla--San Diego Construct 6,258-square foot Single Family Residence on a vacant lot.	neg	04/24/2000
2000032107	Application to Appropriate Water No. 30051 SWRCB, Water Rights Santa Rosa, Sonoma--Sonoma : Under Application 30051, the project applicant proposes to construct a reservoir on an ephemeral, Unnamed Stream for the divert diversion and storage of 28 acre-feet per annum (afa). Project activities include the removal of vegetation, excavation of soil, construction of an earthfill dam, installation of water control pipes, revegetation and soil stabilization measures. The reservoir dam, when completed, will be approximately 24 feet in vertical height. The reservoir will have a surface area of about 2 acres when pooled to maximum permitted capacity. The purpose of this project is to provide water for uses associated with the children's summer camp operations of the Cloverleaf Ranch which include irrigation, domestic use, recreation, stock-watering and fish and wildlife enhancement.	neg	04/24/2000

1993013045	<p>SONOMA STATE UNIVERSITY MASTER PLAN REVISION EIR California State University, Sonoma ROHNERT PARK--SONOMA The proposed project consists of a revision to the existing Sonoma State University Master Plan. Like the existing approved Master Plan, the proposed Master Plan revision would maintain a maximum student population of 10,000 full-time equivalents (FTE). The Master Plan revision would not involve an increase in the rate of student enrollment above that anticipated by the existing approved Master Plan. The Master Plan identifies the facilities and actions required to accommodate the University's development from the existing student capacity of approximately 5,400 FTE to the ultimate student capacity of 10,000 FTE. In addition to new facilities proposed on its main campus, this revision proposes new development on 89.3 acres of property north of the main campus across Copeland Creek, including the proposed Center for the Musical Arts (to be located on 54.7 acres of existing campus property) and university housing (to be located on 34.6 acres on property to be acquired by the University). This project level approval is for the total campus Master Plan, including the Schematic Project Plan approval for construction of the Center for the Musical Arts.</p>	fin

	<p>Historical Park. At the end of the seasonal heavy rainfall period (normally around April 15), County work forces construct an earthen roadbed, with base rock surface and metal culverts, within the San Benito River channel. Later, before the start of heavy winter rains (around December 15th), the roadbed and culverts are removed, and the stream channel is restored to its previous condition. Equipment is used to move the earthen material into and out of the stream channel during construction and removal activities. No concrete is involved in the roadbed construction and no roadway material is taken from areas covered by flowing or standing water. No trees or aquatic vegetation are removed. The seasonal roadbed measures approximately 350 feet long and five (5) feet high. The width of the temporary roadway structure varies from 25 feet at the top to approximately 50 feet at the bottom, with a side slope ratio of 2 to 1. Approximately 1000 cubic yards of material are used to construct the roadway. Two 3-foot diameter steel culverts, approximately 55 feet in length, are installed to allow low-flow water levels to pass under the roadbed. During the rainy season, the earthen material and associated culverts are pushed up out of the channel and piled for storage on an upper terrace, above floodstage. Silt fences are installed to prevent fines from washing into the river.</p>

2000031117	EA SD 1-00 Amendment of Zoning Map #103-4 Zone Change Case # 28. Applicant - Valley Garbage Service Kern County Planning Department Bakersfield--Kern A zone change from C-2 (General Commercial) to M-1 (Light Industrial). The project site consists of three parcels totaling approximately 2.4 acres which are developed with a commercial refuse hauler's truck parking and storage yard and a mattress sales and manufacturing business. The applicant is seeking approval of a change in zoning to allow the retention of the truck parking and storage yard, which was established without the necessary land use approvals. Approval of the M-1 District is also necessary to facilitate expansion of the mattress sales and manufacturing business; however, no expansion is currently being proposed. Two 1,500-square feet building located on the property are used by the refuse hauler for the storage of tools and miscellaneous items in addition to assisting in refuse vehicle maintenance. The mattress company operates out of the 5,400 square-foot building and an adjacent 1,800-square foot covered slab on the western side of the project site. The company rebuilds, wholesales and retails mattresses. Water supply and sewage disposal for the site is by California Water Service Company and Mt. Vernon Sanitation District/Kern Sanitation Authority, respectively. Access is via Quantico Avenue which is designated as a collector alignment by the Circulation Element of the Metropolitan Bakersfield 2010 General Plan.	neg	04/27/2000
2000031118	Extension of Runway 17/35 at Southern California Logistics Airport, Victorville California Southern California Logistics Airport Authority Victorville--San Bernardino Southern California Logistics Airport Authority (SCLAA) proposes to extend Runway 17/35 by 3,000 feet, from 10,050 feet in length to 13,050 feet. The proposed action envisions extending the runway by 2,000 feet on the north and 1,000 feet on the south. The extension would include construction of a 2,000-foot taxiway which will parallel the northerly runway extension, the installation of additional edge lighting and the relocation of the localizer, 300 feet southerly of its present locations.	neg	04/27/2000

1984071707	Fink Road Landfill Expansion Stanislaus County Crows Landing--STANISLAUS Expand existing Fink Road Landfill onto a portion of 2,418 acres of adjacent property. Approximately 831 acres would be developed into a Class III landfill and ancillary facilities. The remaining land would remain in agriculture production or open space.	nop	04/27/2000
2000032123	Riverwalk Specific Plan, General Plan Amendment, Development Agreement, Annexation, Vesting Tentative Map, and Williamson Act Contract Cancellation Lathrop, City of Lathrop--San Joaquin The specific plan and annexation area consists of 523 acres. There are approximately 342 acres of single-family homes, a 20-acre elementary school site, two neighborhood parks with a combined total of 12 acres, a 10-acre community park, a 10-acre open space corridor and detention basin adjacent to the San Joaquin River, and an 8-acre landscaped pedestrian / bicycle corridor. The plan also includes approximately 11 acres of major roadway improvements to include the widening of existing roads (Manthey Road and De Lima Road), and the construction of two new roads (Golden Valley Parkway and River Road). The specific plan area includes an additional 10 acres south of the proposed residential area comprised of 3 acres designated Community Commercial at the northeast corner of Manthey and Lathrop Roads, and approximately 7 acres of existing public right-of-way (Manthey Road) between De Lima and Lathrop Roads that require improvement. A 100-acre non-contiguous annexation for public purposes proposed for a Wastewater Reclamation Plant, "City of Lathrop Water Reclamation Plant No.2," will need to be consistent with the policies of the proposed Water, Wastewater and Recycled Water Master Plan now under review. A revision to this Master Plan will also be required to move the plant from the golf course to the planned location. A development agreement and Williamson Act Contract Cancellation will be required for the specific plan area.	nop	04/27/2000
1994103069	Geysers Recharge Project Construction Addendum LLano and Mark West Segments Santa Rosa, City of Santa Rosa--SONOMA As a result of final engineering design, minor changes to the Upper and Lower Pine Flat Road Segments of the Geysers Recharge Project have been recommended. The modifications consist of minor changes in pipeline alignments in five locations, construction of one 1-million gallon storage tank instead of 2 half million gallon tanks at the end of the transmission pipeline, changes to project description measures adopted as part of the project, and changes to mitigation measures.	nod

1996052098	Edenvale Redevelopment Plan San Jose, City of San Jose--Santa Clara The project is buildout of Edenvale Redevelopment Area, which is projected to include construction of approximately 7.88 million square feet of additional industrial uses. The New Edenvale Redevelopment Area will accommodate up to 4.8 million square feet of new industrial development on vacant properties. Development of the vacant parcels in Old Edenvale can include up to 3.08 million square feet of new industrial development. The EIR analyzes the impacts from the following specific actions that would be necessary for the projects to proceed: (1) Area Development Policy to allow development to proceed ahead of transportation improvements; (2) Formation of Improvements and Community Facilities to fund area improvements.	eir	05/15/2000
1998032022	Downtown Sacramento-Folsom Corridor Project Sacramento Regional Transit District Sacramento Regional Transit proposes to improve transit services in the US 5/Folsom Blvd. corridor in the City and the County of Sacramento and the City of Folsom, California. Alternatives evaluated include a No-Build Alternative, a Transportation Systems Management (TSM) Alternative and a light Rail Transit (LRT) Alternative that would extend LRT service from the existing St. Rose of Lima Station in downtown Sacramento to the Amtrak Station; add double-tracking to existing single-track segments within the City of Sacramento; and extend LRT service from the existing Mather Field Station eastward to downtown Folsom. The LRT Alternative has been identified as the preferred alternative under the preferred investment strategy adopted in the U.S. 50 Corridor Major Investment Study. The LRT Alternative will be constructed to a downtown Folsom station and four future planned LRT stations will be constructed as soon as additional funding is identified.	fin

2000031126	<p>Rose Avenue Widening Oxnard, City of Oxnard--Ventura</p> <p>The Rose Avenue Roadway Widening Project proposes to improve a 5,200 lineal foot segment of Rose Avenue, a 1,200-foot segment of Mountain View Avenue, a 260-foot segment of Emerson Avenue and a 610 foot segment of Wooley Road located in the City of Oxnard (Ventura County). That segment of Rose Avenue, which represents the study area, begins at the intersection with Fifth Street and extends south to the intersection with Emerson Avenue. The studied segment of Mountain View Avenue extends from Pacific Avenue to the intersection with Rose Avenue while; the segment of Emerson Avenue under study extends approximately 260 feet east of the intersection with Rose Avenue. Finally, the Wooley Road improvements would extend east, 610 feet from the Rose Avenue intersection. Four alternatives, including a no-project alternative, were initially considered for the proposed project. Alternative A was determined to be the Preferred Alternative based on the need to accommodate current and projected future traffic volumes in a safe manner with the least disruption of structures and existing, permanent roadway and landscaping improvements as well as right-of-way acquisition. Alternative A would widen Rose Avenue to accommodate two 12-foot wide travel lanes in each direction, provide a 10-foot wide dedicated turn lane at those intersections where they presently do not exist, introduce a 5-foot wide bike lane in each direction, and construct curb, gutter and sidewalk on the west side of the street, where it presently does not exist. A portion of Emerson Avenue, Mountain View, and Wooley Road would be improved to align with the improved Rose Avenue. The project would also upgrade the existing storm drainage network, because the existing system is not adequate to handle current flows after as well as flows after the roadway improvements are in place.</p>	neg	05/01/2000
